Work History

LaunchCode - LC101 and Liftoff

07/20-Now

Teaching Assistant/Lead Instructor

07/18-09/18

Saint Louis, MO

- Taught 150 person lecture, two separate classes:
Validation/Request Handlers/Redirects and Templates/Git commands
- Lead a group as TA three times: 1x LC101, 2x Liftoff:
For LC101, 12 students learning Python. For Liftoff, 6 students learning job readiness and completing their first independent project.

Veterans United

02/20-08/20

Web Application Developer

Saint Louis, MO

- Gathered requirements, wrote cards, organized a team of four developers, and delivered a greenfield windows service, with no prior knowledge for anyone on the team, with 5 external dependencies owned by other teams, a new to us sever stack, and a CICD pipe, start to finish in 2 weeks, one sprint.
- Created and deployed customizations to external vendor software in C# and VB to meet the highly-complex needs of the internal users.
- On hiring team: phone interviews, technical interviews, developer interviews.

Lumeris

08/18-02/20

Software Engineer, Associate Software Engineer

Saint Louis, MO

- Highest individual honor companywide 3 months after employee conversion and promotion 9 months
- Built SSIS and C# from scratch, as well as deploy and rollback
- Refactored C# legacy code to be object orientated while also making business logic changes
- Brought two different automation solutions to two different teams
- Worked with an outside vendor, our internal business, and made changes on eleven separate websites

Massage Envy

11/10 -12/17

Massage Therapist- Structural Bodywork and Alignment
